

## Core Competencies: Infrastructure & Security

### Security Services

- Security Strategy Assessments
  - Develop Best Practice Policies & Procedures
  - Detection and Remediation of Security Risks
  - Personal Identifiable Information (PII) Assessment
  - SIEM (Security Information & Event Management) Support
- Complete Network and Firewall Capabilities
- Payment Card Industry (PCI) SAQ Assessment
- Breach Assistance

### Cloud Services

- Cloud Strategy Assessment
  - Readiness Evaluation
  - Cloud Hosting Options
    - Public Cloud
    - Private Cloud
    - Hybrid Cloud
- Cloud Architecture Design
- Cloud Vendor Selection
- Execution of Cloud Strategy

### Infrastructure Services

- Network Design and Application Architecture
  - Disaster Recovery Planning
  - Redundancy
  - Virtualization Environment Evaluation
  - Risk Assessments & Mitigation
  - Evaluation of Fault Tolerance of Business
- Core and Distribution Network Design
- Mobility
- Wireless
